Agile activity and assignment

Problem statements

Plan a 10 day trip for your project team

Activity

First 10 mins:

Prepare a high-level draft of your solution. This should include the following:

Scope

1.Date

2.Number of peoples in Team

3.Areas that are going to visit

4.Make Small Timetable of On which day Which spot are going to Visit

5.Booking tickets of bus

6.Hotels Booking

Milestone 1:

Here we are going to plan 10 day trip for project team.The Questions Related to that are as following:

1.Number of peoples coming for a trip?

2.What are the flexible dates for trip?

3.What are the spots for a trip?

4.Time period for each spot?

5.How much budget you are planned for this trip?

Milestone 2

20 mins

Breakdown your plan/script in chunks/parts/tasks that can be explained independently (Preparation of product backlog)

Prioritize Task:

1.Number of peoples coming for a trip.

2.Date and Time

3.booking tickets of bus and hotels

4.spots which are decided to visit during trip.

5.deciding the number of days for each spot.

6.Deciding the returning date from trip

Milestone 3

Sprint 1: Time(1 Day)

Sprint planning:

1.Go through all possible dates which are felxible for organisation and come up with most suitable dates.and decide the spot and number of days that are going to spend on each spot.

2.From all the team list out the members which are intrested for a trip,and book the tickets of bus and hotels .

Milestone 3.1

Sprint 2 :Time(2 days)

1.After deciding the dates and the spots first we need to take basic requirement under considaration such as are the peoples comfortable with bus , outside food and travelling as well.

2.ensure that all the spots in a range so that everyone enjoy trip rather than tried up with the travelling.

2.If any emergency occurs there will be there will be service of hospitalization.

Milestone 3.2

Sprint 3:Time(5 days)

1.According to the number of peoples the number of bus will be arranged and also assurance of their comfortness.

2.Hotels that are going to be booked they must have affordable and secured as well as comfortable.

3.each and every spot and their booking of hotels are managed according to the Time assigned .

Milestone 4-(Review and Restropective)

In this each and every chunk is reviewed if it is developed according to the requirement then it is passed otherwise re-assigned with the task that need to be improvement.
